## Queenstown's Premier PHOTO BOOTH

Introducing QT Booth's magical Mirror Booth, an out-of-the-box photo booth experience that is guaranteed to make your special day even more unforgettable.

This modern interactive open-air Photo Booth looks like a large mirror, but magically transforms into a fun and interactive way to get High Quality photos at your wedding.

It comes with professional studio lighting, a high quality DSLR camera and unlimited prints, making it like a super portable photo studio that is customisable for your wedding!

As guests walk up to the mirror, colourful animations and a voice guidance invite them to engage in a magical, interactive "selfie" touchscreen experience, and finishes with an instant photo keepsake.

A perfect addition to your big day, the QT Booth creates a buzzing atmosphere of excitement, leaving everyone impressed at what happens when entertainment and creative technology collide.

Our Mirror Booth is not just a way of capturing unique images of people doing funny things and acting out of character, but it's extremely entertaining for you and your guests.

You get to enjoy your wedding then later look back at the images created by the booth that you normally would have missed.

It's a great reminder of how fun your special day really was, and it also gives your guests pictures to physically take home and remember it forever.

## TECHNICAL REQUIREMENTS

- The QT Booth requires a 3x3 meter<sup>2</sup> space, and operates from an 110V power outlet.
- If your event is outdoors, in addition to above, we will need solid, level flooring and a weather protected area incase of rain.
- Sunlight can also affect the ability to see the mirrored screen, so ideally the booth would need to be used after dark or set up in a dark area.
- Stairs and multi-level venues may pose a unique challenge for the setup of the booth, so upon inquiry please let us know as much detail about your venue as possible.
